

Departing from Appalachias 150-year-old literary legacy of formula and caricature, West Virginia native Ann Pancake uses the texture of language, an intense attention to place, and complexity of characterization to recreate the region -- its tragic history and fragile culture, the interior landscapes of its people, and their deep rootedness in a threatened land. Her characters, already marginalized economically and socially, confront what many perceive as an invading outside culture, enduring and at times transcending the loss of their place, both literally and figuratively. Their stories undermine the assumption that just because people dont articulate what happens inside them, nothing much is happening at all.
