

The Art Gallery

Taking the job curating the private art gallery was supposed to be a new beginning for Jane and her three kids. Widowed two years ago, Jane has lost everything and this job is all that stands between her family and the street. How was she to know the gallery focused on erotic art and was owned by a man who wanted nothing more than to enslave her? Blackmailed into performing unthinkable acts, Jane must come to terms with her own deviant sexuality, as well as that of her three kids.
