

Tom Sullivan is a 21-year-old college student, and hes in love with his creative writing professor - as well he should be. Margaret Cavellari is hot! She looks like a cross between Catherine Zeta-Jones and Penelope Cruz. Okay, so no one is really that hot, but Margaret is close. In addition, shes kind. Shes funny. Shes interesting. And shes a great teacher. So when Tom accidentally discovers her computer password, what will he do? Will he read her e-mail? Will he look at her pictures and her word processing files? Will he go into her gradebook? Naturally, Tom Sullivan is curious. But is he also stupid? Of course he is. Read all about Toms computer adventures in this contemporary novel published by Mohawk River Press.
