

The Colour Out of Space (Penguin Modern Classics)

It was a monstrous constellation of unnatural light, like a gluttonous swarm of corpse-fed fireflies dancing hellish sarabands over an accursed marsh (...)H.P. Lovecraft was perhaps the greatest twentieth century practitioner of the horror story, introducing to the genre a new evil, monstrous, pervasive and unconquerable. At the heart of these three stories are terrors unthinkable and strange: a crash-landing meteorite, the wretched inhabitant of an ancient castle and a grave-robbers curse. This book includes The Colour Out Of Space, The Outsider and The Hound.
